SAY NO TO SHOOTING DOVES November 7th

There's **NO** good reason to shoot mourning doves:

- Doves are **NOT** overpopulated.
- Doves are shot for target practice, **NOT** for food.
- Doves are **NOT** harmful to humans, property or crops.
- There are already 40 game bird species in Michigan and there's **NO** reason to add doves.
- It has been Michigan's tradition to protect mourning doves since 1905, and there's **NO** reason to change that now.

It's all about the doves

The Committee to Keep Doves Protected has only one goal – to restore Michigan's 100-year tradition of protecting mourning doves, Michigan's official bird of peace.

Join the grassroots coalition of agricultural, conservation, humane, faith-based and community organizations and thousands of Michigan citizens who want to continue the protection of the mourning dove as a traditional backyard songbird.
